# MICRO-ENGRAVING

O-Ring Unit Identification

In-house Manufacturing, Safe Sealing

Our new micro-engraving service enables you to identify your O-Rings and verify their authenticity.

Read the engraved identification code, look it up in our smartphone app *O-Ring Info* and access to following traceability information:

- ▶ Part number
- ▶ Dimensions
- ▶ Rubber compound
- ▶ Date of manufacture
- ▶ Hutchinson guarantee of origin

## O-RING INFO

The code can be read with these tools:

MACRO LENS

LOUPE

MICROSCOPE

## Service: MICRO-ENGRAVING for O-Rings

- ▶ Unit identification of O-Rings
- ▶ Traceability number on the O-Ring surface
- ▶ Character height 0,2 mm
- ▶ Permanent & indelible
- ▶ Service available for special shape seals on request

## Safe Sealing

- ▶ Preserved sealing performance

Everything you always wanted to know about the O-Ring...
