As a leading manufacturer of sealing solutions, Hutchinson provides standard and tailor-made solutions like O-Rings, X-Rings, bonded seals and special shape seals.

From the compounds formulation and production to the conception and production of the parts in small or large series, we do everything in our plants.

SECURE YOUR PRODUCTION

In a challenging environmental and sanitary context, the food industry needs reliable partners capable of adapting to new regulations and guaranteeing the origin of their products.

For the safety and health of consumers, Hutchinson accompanies the professionals of the sector to optimize the quality and the characteristics of the transformed products in the production cycles.

Besides, our expertise guarantees an optimal sealing of the installation which prevents losses and waste and maximizes the performance and the competitiveness of the production lines.

As a pledge of quality and reliability, our production plants are certified ISO 9001, ISO 140001, ISO 50001 and OHSAS 18001.

SEALING SOLUTIONS

O-RINGS

- > Large standard size range in stock
- > Dimensional standards (AS568, BS1806, Bague R...)
- > Available features: surface treatments, cleanliness, micro-engraving for traceability

TAILOR-MADE SOLUTIONS

- > Development according to your specifications
- > Compounds and solutions optimizing assembly, friction etc...
- > Characterization & soaking tests in our laboratories
- > Finite elements calculations

BONDED SEALS

- > Bi-material seals (metal/rubber) used for screw, bolt, connector or flange assembly
- > For applications using compressed air, oil and aromatic fragrances

- > Wide range of compounds: NBR, FKM, EPDM, HNBR, ACM, AEM, IIR, CR, VMQ, FVMQ...

- > From 50 to 98 Sh. A
- > Temperatures from -50°C up to +250°C
- > From low to high pressure

FOOD INDUSTRY APPROVED COMPOUNDS

We offer a range of sealing solutions which can be in contact with food for human consumption transformed in the food industry plants (water, milk, juice, wine, liquor, oil, vegetable oils, animal fats ...).
